

Water-based pigments of great solidity, manufactured to make mono doses for the coloration of microcement.

HOW TO USE

Shake vigorously before using the product. Use a precision balance with, at least, three decimal digits to get pigment as accurately as possible. Contact Luxury Concrete to get the table of proportion of colors and mixtures needed for our color chart.

BASIC DATA

COLOR	Density (g/ml)	Viscosity (CF4)
Green	1.19	28.78 s
Blue	1.07	15.53 s
Black	1.56	11.69 s
Red	1.17	11.22 s
Yellow	1.62	12.91 s
White	2.10	16.53 s

SPECIAL PRECAUTIONS

In case of contact with eyes, clean with plenty of water for 15 minutes.

In case of skin contact wash with SOAP and water.

Do not ingest. If swallowed, do not induce vomiting and seek medical attention immediately.

Keep out of the reach of children.

It is recommended to comply with the following measures:

- Good ventilation
- Protective glasses
- Rubber gloves

Empty containers must be disposed of in accordance with current legal regulations.

STORAGE CONDITIONS

The products of Luxury Concrete should be stored in their closed original packaging, sheltered from the weather at temperatures between 5°C and 30°C in a dry and well ventilated place, away from direct heat and sunlight. Shelf life is 1 year from the date of manufacturing, if stored correctly.

The product should not be used for purposes other than those specified without first having instructions in writing. It is always the user's responsibility to take suitable measures in order to comply with the requirements established in local legislation. Product safety sheets are available for professionals. This technical data sheet will be valid until a new edition appears.

PROPERTIES

Quick dissolving

Great power of dyeing

Ready to use,
do not mix with water or other liquids

High stability pigments

Available in: Green, Blue, Black, Red,
Yellow and White

PACKAGING

Available in 1 litre plastic bottle.
